MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(Dollars in Thousands, Except as Noted) (Unaudited)

The following commentary summarizes the principal aspects of the financial position and results of operations of Farm Credit of Western Oklahoma, ACA for the quarter ended March 31, 2009, with comparisons to the prior year and prior quarter. You should read these comments with the accompanying financial statements and footnotes, along with other disclosures contained in this report and the 2008 Annual Report to Shareholders. The accompanying financial statements were prepared under the oversight of our Audit Committee.

Commodity prices have continued to decline slightly over the first quarter; however, input cost also decreased which has reduced the decline in profit margin. Crops were stressed early in the growing season due to drought conditions, but recent rains have improved the outlook for spring crops. Overall market conditions continue to show signs of stress, however earnings over the past 5 years have created overall healthy financial statements for our customers allowing them to withstand some adversity.

LOAN PORTFOLIO

Loans outstanding at March 31, 2009 totaled \$325,550, an increase of \$2,754 or 0.85%, from loans of \$322,796 at December 31, 2008.

RESULTS OF OPERATIONS

Net interest income for the three months ended March 31, 2009 was \$2,207, an increase of \$181, or 8.93%, from the same period ended one year ago. Interest income increased as a result of increased loan volume, the roll-off of the 1.9% machinery and equipment loans, and increased spreads.

Net income for the three months ended March 31, 2009 was \$113, a decrease of \$2,777, or 96.09%, from the same period ended one year ago. This is primarily due to a provision for loan losses of \$697 versus a loan loss reversal in 2008 of \$1,761, along with an increase in expenses of \$348 and the decrease in patronage payments from AgBank in the amount of \$196, partially offset by the \$181 increase in interest income discussed above.

We have been notified by AgBank that they have changed their patronage program whereby patronage will be paid annually, after the end of the year, to its members. Previously, AgBank paid patronage quarterly. As a result, our quarterly earnings compared to the previous period will be negatively impacted during 2009.

CAPITAL RESOURCES

Our shareholders' equity at March 31, 2009 was \$66,198, an increase from \$66,074 at December 31, 2008. This increase is due to net income and capital stock purchases.
